Questions:

Our company, ViewPoint Government Solutions, is planning to submit a proposal for RFP # 16-001-31 Memphis and Shelby County Construction Code Enforcement Software Permitting System, and I have a question regarding the EOC Number application.

The RFP specifies that we print the application packet and mail or fax it back to the EOC office; however, the application is also available for electronic submission on the EOC webpage. I'm checking with you to make sure that it will be acceptable under the RFP submission requirements to file our application electronically. I spoke with Joshua in the EOC office, and he said that either print or electronic submission is acceptable to them.

Answer:

As long as EOC office has your application by the closing date of the RFP you're bid will be accepted.
