H. Locally Owned Small Business (LOSB)

The County encourages the utilization of locally-owned small businesses as sources of subcontract work. The County notifies all respondents that all firms and/or individuals shall comply with the regulations relative to nondiscrimination in federally assisted programs of the Title VI of the Civil Rights Act of 1964, as amended.

LOCALLY OWNED SMALL BUSINESS PURCHASING PROGRAM RULES AND REGULATIONS:

(i) The Administrator of Purchasing in conjunction with the Administrator of EOC shall identify certain goods and services required by the County to be set aside for special purchasing procedures for locally owned small businesses.

(ii) Only certified locally owned small businesses will be allowed to submit competitive bids on the goods or services identified under paragraph (i) above.
(iii) The Administrator of Purchasing shall, in conjunction with the Administrator of EOC, annually review the Shelby County Capital Improvement Program to determine those projects with a construction cost of $250,000 or more. Contracts amounting to at least ten (10%) of the construction costs of such project shall be awarded to locally owned small businesses as defined herein, except as set forth in sub-paragraph (vi) of this section, either as part of the conditions of the solicitation for general contractors bidding on these projects, or as separate bids issued by the County for subcontracts that may be assigned to general contractors.

(iv) After adhering to all other bidding and purchasing requirements of the County, not inconsistent with this part, if no bids are received from locally owned small businesses, then the County may solicit bids for the goods or services from all other sources.

(v) On all purchases and/or contracts entered into by the County, the Purchasing Administrator or his or her designee shall have the right to negotiate with any supplier of goods or services to the County for the inclusion of locally owned small business subcontractors and/or suppliers in the contract award.

(vi) Failure by a supplier or contractor to include locally owned small business subcontractors or suppliers in its bid or contract may be grounds for rejection of said bid or contract unless the supplier or contractor can show documented evidence of good cause why none were included.

(vii) Any locally owned small business awarded a contract or purchase order under this section shall not sublet, subcontract or assign any work or services awarded to it without the prior written consent of the Mayor or the Purchasing Administrator.

(viii) As to those purchases below the requirement for a formal bid solicitation (currently, under $15,000) and not included in the locally owned small business set aside, the Administrator of Purchasing shall determine if any locally owned small business offers that product or service. If so, at least one such eligible locally owned small business should be included in the vendors contacted for an opportunity to bid, and the Administrator of Purchasing may, at his discretion, designate in a purchase order the purchase of such goods and services from the identified locally owned small business.

(ix) In those situations where a locally owned small business as defined herein, engages in open competitive bidding for County contracts, the Administrator of Purchasing shall provide for a preference for the locally owned small business where responsibility and quality are equal. Said preferences shall not exceed five percent (5%) of the lowest possible bidder meeting specifications. The preference shall be applied on a sliding scale in the following manner:
a. A preference of up to five percent (5%) shall be allowed for contracts up to $500,000.00;

b. A preference of up to three and one-half percent (3.5%) shall be allowed for contracts up to $750,000.00;

c. A preference of two and one-half percent (2.5%) shall be allowed for contracts up to $1,000,000.00;

d. A preference of two percent (2%) shall be allowed for contracts that exceed $1,000,000.00.

(x) For construction contracts over $2,000,000.00, the Administrator of Purchasing shall provide for a preference of two percent (2%) to general contractors meeting the requirements of Section 1, Subparagraph B, if fifty percent (50%) or more of the total work comprising the bid has been or will be awarded to certified locally owned small businesses. The fifty percent subcontracting threshold must be met prior to contract execution.

(xi) The Administrator of Purchasing may divide a single bid package for any purchase of goods and services into two or more smaller bid packages in any case that the Administrator of Purchasing reasonably believes that the smaller bid packages will result in a greater number of bids by locally owned small businesses.

(xii) The Administrator of Purchasing, upon approval of the County Mayor, may establish special insurance and bonding requirements for certified locally owned small businesses so long as they are not in conflict with the laws of the State of Tennessee.

(xiii) The Administrator of Purchasing, with the approval of the County Mayor, shall adopt and promulgate, and may from time to time, amend rules and regulations not inconsistent with the provisions of this ordinance, governing the purchase of goods and services from locally owned small business concerns to effectuate and implement the Locally Owned Small Business Purchasing Program within the intent of this ordinance.

(xiv) The Administrator of EOC shall, in conjunction with the Administrator of Purchasing, provide a written quarterly report to the Mayor and Board of Commissioners which shall include a summary of the purchases selected for this program, a listing of the contracts awarded to locally owned small businesses for the period, and the dollar amounts of each such contract, and the percentage which such contracts bear to the total amount of purchases for the period.
VII. GENERAL REQUIREMENTS

A. Background

Men who have sex with men (MSM) are more severely affected by HIV than any other group in the United States. Nationally, the annual HIV diagnosis rate has decreased more than 30% over the past 10 years. During this same period, however, the rate of new diagnoses has increased among certain groups of men who have sex with men (MSM), especially young African American/Black MSM. The Memphis Metropolitan Statistical Area (MSA) is home to some of the highest HIV rates in the country, especially among young African American/Black MSM. The CDC reported that the Memphis MSA HIV prevalence rate for male youth between the ages of 13-24 (288.0 per 100,000) was the highest in the United States in 2011. In the same year, the Memphis MSA HIV prevalence rate (1,088.2) for males ages 25-34 was also the highest in the U.S.

While the number of new infections in Memphis has remained relatively stable over the past five years, significant disparities persist. In Memphis in 2013, men accounted for 67% of prevalent and 75% of newly diagnosed HIV infections. Of men in Memphis with newly diagnosed HIV in 2013, 68% identified as being MSM (15% identified no risk), and 89% were men of color. One-fifth of transgender PLWH in Tennessee live in the Memphis MSA.

The facts highlight the disparate impact of HIV on racial/ethnic and sexual minorities in Memphis, particularly African American/Black MSM, and the need for innovative approaches for HIV prevention in this population. Pre-exposure prophylaxis (PrEP) is a powerful HIV prevention tool which, to date, has been underutilized in this hard-hit, high morbidity MSA.

Project PrIDE (PrEP ● Implementation ● Data2Care ● Evaluation) seeks to reduce HIV infection and improving engagement in HIV medical care among MSM and transgender persons in Memphis by: 1) increasing community awareness of PrEP for HIV prevention; 2) utilizing health departments and community based organizations to identify and educate MSM and transgender persons about PrEP services; 3) providing MSM and transgender persons navigation to PrEP services; 4) providing education and capacity-building assistance to medical providers; and 5) developing and implementing policies, procedures, and protocols supporting the scale-up of PrEP.

Project PrIDE also addresses the National HIV AIDS Strategy (NHAS) goals for reducing new HIV infections and reducing HIV-related disparities by supporting MSM and transgender populations access a proven HIV Prevention strategy, PrEP, that will reduce new HIV infections up to 92% when taken as prescribed. B. Scope of Contract

The County wishes to establish contractual relationships with designated Contractor(s) selected to administer the programs and the best-qualified Agencies selected through a competitive process that will work in a manner that is cost-effective and practical. All Agencies must be prepared to
begin immediately upon receipt of a Notice to Proceed. The selected Agencies will be expected to meet with appropriate Shelby County Government staff within one week of receipt of the Notice to Proceed.

C. Project Time Frame

The initial term of the contract will begin upon execution of the contract and continue through September 29, 2017 with the option to renew for three (3) additional one year periods with the same terms and conditions and satisfactory performance of all criteria and subject to the availability of funds for each renewal period. The optional renewal periods will be upon mutual written consent of both parties. The provider must be prepared to begin immediately upon receipt of a fully executed contract and written “Notice to Proceed” from the County.

D. Reservation of Rights

The County reserves the right, for any reason to accept or reject any one or more proposals, to negotiate the term and specifications for the services provided, to modify any part of the RFP, or to issue a new RFP. The County may at any reasonable time, at its expense, make an audit of the Provider’s books relative to the Accounts.

E. Selection Criteria

Each proposal response will be evaluated on the criteria outlined in Section XI and XII of this document. The Proposal Instructions can be found in Attachment B. Each bidder should clearly identify the qualifications of its company and the names and qualifications of each individual who will work on this project in response to this RFP.

F. Contract Monitoring

Site visits include a review of both fiscal and programmatic documentation. Key personnel involved in implementation of the Scope of Services at any and all locations where funded activities occur should be available for site visits, and make all appropriate records available to County staff. Additional information may be requested prior to, at, or subsequent to the site visit(s). The Contractor(s) will have a reasonable time to produce such information. The Contractor(s) will also receive reasonable notice prior to each site visit.

G. Payments

Funds may not be used to make payment for any item or service if payment has already been made or can reasonably expected to be made under any state compensation program, any insurance policy or any federal or state health benefits program or by an entity that provides health services on a pre-paid basis. (42USC 300ff-15(a)(6)). Funds may not be used to supplant third-party reimbursement.”
H. Additional Information and References

Any additional information that would be helpful to the County in evaluating a proposal, including a list of current and former clients with a similar profile to Shelby County, should be submitted. At least three (3) current, or former clients who have terminated in the last five (5) years, should be included on this list.

VIII. AWARD OF CONTRACT

Proposers are advised that the lowest cost proposal will not necessarily be awarded the contract, as the selection will be based upon qualification criteria as deemed by the County and as determined by the selection committee and the County Mayor.

The award will be made to the proposer whose proposal is determined to be best in terms of professional and technical completeness. The selection process may, however, include a request for additional information or an oral presentation to support the written proposal.

The proposers whose proposals do not meet the mandatory minimum requirements will be considered noncompliant. After evaluation of the proposals and selection of the successful proposer, all proposers will be notified in writing of the selected firm.

IX. PURPOSE

To select the best-qualified Agencies and award County-approved contracts for professional services, to perform the Services and to satisfactorily complete all activities associated with the Services. Shelby County Government is soliciting written proposals, on a competitive basis from qualified agencies or professionals, to provide one or more of the funded services.

A. Service Requirements

1. The Proposer's activities must address the identified needs of people at risk for HIV infection, specifically the target populations identified in section VII.A. Applications requesting funding for programs that do not address the designated target populations and program strategies will not be reviewed.

2. The Proposer must demonstrate that the Proposer has sufficient knowledge and/or experience in provision of services to the target populations to carry out the proposed project. This includes knowledge of and experience with HIV/AIDS testing, prevention and care related services, as well as other necessary experience and knowledge to carry out the specific activities that are proposed.

3. Proposers may choose to apply for any strategy independently, or a combination of strategies; the Proposal should clearly identify how funding for multiple program strategies allows for improved or expanded capacity to serve their prospective clients.
4. The Proposer must demonstrate sound financial and program management, provide effective programs, have an evaluation component in place for the program and the agency.

5. In accordance with state law, the proposer shall not discriminate in their employment practices with regard to race, color, religion, age (except as provided by law), sex, marital status, sexual orientation, political affiliation, national origin, or handicap.

6. The proposer may be a primarily religious organization if that entity agrees to provide eligible activities free from religious influence. No funds will be awarded to a primarily religious organization to acquire or construct a facility.

7. Where applicable to services provided, the Proposer is required to provide evidence for fiscal audits that the Proposer has billed all available third-party payers.

8. All services provided must be tracked and data collected and reported in accordance with program requirements.

B. Definition of Program Strategies to be Funded:

MSM and transgender persons, particularly of color, are disproportionately affected by HIV in the Memphis MSA. The program strategies described below seek to support these at risk individuals and their access to PrEP through increased awareness, identification, education, and navigation to PrEP services. These strategies are directed at increasing knowledge in the community as a whole, among individuals at high-risk of acquiring HIV (especially MSM and transgender persons of color), and the community medical providers serving these populations.

To accomplish the goals of Project PrIDE, Shelby County Government is seeking proposals from interested and qualified agencies and professional individuals to implement the following strategies to produce the accompanying outcomes.

Program Strategy 1: Increase Community Awareness via Digital & Traditional Media

- **Outcome 1.1:** Increased knowledge and awareness of PrEP for HIV prevention among MSM and transgender persons

- **Description:** Shelby County Government seeks to develop and conduct a media campaign to increase awareness of PrEP availability in the Memphis MSA. This will be a two-fold campaign, with messages delivered via digital media, with complementing messages also going out via traditional mass media. The goal is to increase knowledge and awareness of PrEP for HIV Prevention among MSM and transgender persons at high risk for HIV infection, particularly persons of color and other persons at substantial risk for HIV, so that more at-risk individuals will seek and be prescribed PrEP. It is required that the campaign target digital and social media that the target audience frequently visits. If possible, existing campaigns developed by the Centers for Disease Control (CDC), Kaiser, or other national leaders in HIV Prevention media will be used and tailored to the Memphis MSA.
Shelby County Government seeks a comprehensive strategy for digital media marketing and will require that specific metrics are tracked, including the total number of placements, exposure/reach, and geo-targeting by zip code. Traditional media will be used to layer the messages – covering billboards, bus ads, and other avenues proven to reach the target population. The marketing strategy must be tested using focus groups made up of the target population before the campaign commences.

Activities to be completed under this program strategy include:

- conducting at least two (2) focus groups with MSM and transgender people, assessing media consumption, social network and web usage,
- developing a website that includes, at a minimum, a PrEP provider directory, information on Memphis MSA PrEP navigation services, and other resources,
- directing a traditional media campaign (e.g. print, radio, TV, outdoor outlets), and
- directing a digital/social media campaign targeting websites and social networks that the target populations frequently uses

Program Strategy 2: PrEP Navigation Services

- **Outcome 2.1:** Increased number of MSM and transgender persons who are linked to PrEP providers for assessment and prescription of PrEP
- **Outcome 2.2:** Increased number of MSM and transgender persons who are prescribed PrEP
- **Description:** A significant barrier to PrEP in Memphis is the navigation to required services and paperwork to access those services. In order to alleviate this barrier, PrEP Navigators will be funded to navigate clients through complicated medical systems to access PrEP services. These navigators will develop and maintain a directory of providers who are willing and able to prescribe PrEP, who provide the wrap-around services needed for ongoing support of individuals on PrEP, and who are culturally competent in serving MSM and transgender people. They will work with clients who screen eligible for PrEP services to understand their ability to pay for PrEP (assess insurance and income status) and to assist those clients in choosing and scheduling with the appropriate provider given their specific insurance and income situation. Once a provider has been selected, the navigator will aid in completing all forms associated with the application process. Navigators will assist clients with transportation issues they may encounter for their medical appointments. After the medical appointment, if the client was written a prescription for PrEP medications, the navigator will continue working with the client and the provider to complete necessary paperwork for insurance coverage and/or patient assistance programs to pay for the prescription. PrEP Navigators will maintain their clients through the first six months of their taking PrEP. During the first six months the client is taking PrEP, the navigator will provide adherence support via mechanisms the client identifies (helping them to set alarms/reminders for taking medications, filling prescriptions, necessary dates for medical and/or paperwork appointments). This may be particularly important as a client begins taking PrEP and experiences possible side-effects.
The navigator will also ensure that the client continues to access needed medical services to maintain PrEP (if desired) and is available to provide ongoing support and education as the client desires. Each consumer who meets with a Navigator will receive a resource packet including the following information: 1) PrEP eligibility and treatment regimen; 2) eligibility guidelines and sample applications for medication assistance programs and CAP; 3) PrEP online/community resources; and 4) PrEP Navigator contact information. In addition to working directly with clients, the PrEP Navigators will be responsible for maintaining relationships with PrEP providers, HIV testing sites, and other venues where potential PrEP candidates might be accessed.

Activities to be completed under this program strategy include:
- developing and maintaining a directory of providers willing and able to prescribe PrEP,
- providing information and materials about PrEP and PrEP-related services to at least twenty (20) new, pre-PrEP clients each month,
- providing, for the first one hundred eighty (180) days after successful prescription and administration of PrEP, the below noted Navigation services to an ongoing case load of at least twenty (20) clients each month:
  - Adherence support: follow-up discussions of any barriers that that clients may face in continuing to take PrEP
  - Personalized assessments of the clients’ ability to pay for PrEP, including individual insurance status and income assessments
  - Referral to necessary medical services in order to maintain PrEP
  - Advice regarding selection of, and scheduling with, appropriate PrEP providers, and
- documenting the number of meetings that are scheduled with ongoing clients, as well as any challenges that clients may face with regard to adherence.

Program Strategy 3: Increase Provider Capacity to Support PrEP
- **Outcome 3.1:** Increased knowledge and awareness among providers regarding PrEP availability, indications, and clinical protocols for prescribing PrEP for HIV prevention
- **Outcome 3.2:** Increased number of providers prescribing PrEP for HIV prevention
- **Description:** Provider capacity will be increased by two activities:
  - **Activity 1:** Provider Education: Academic Detailing – In order to bolster the network of providers who understand and are willing to prescribe PrEP, Project PrIDE will provide academic detailing services for PrEP. Academic detail specialists will conduct visits to primary care physicians in the Memphis MSA to provide PrEP related education and assistance. Academic detailing combines the interactive one-on-one communication approach of sales with the evidence based noncommercial information of academia. It supports improved clinical decision making by fostering one on one interaction between physicians and health professionals trained to communicate the latest evidence based clinical data. The detailing will cover PrEP basics, protocols for prescribing PrEP, and information about Practice Site Champions, PrEP navigators, DIS PrEP Specialists, and patient
assistance program assistance. In addition to the visit from the academic detail specialists, print materials for use by the clinicians will be developed and provided. These materials include resources for patients, clinical protocols, HIV surveillance data for Memphis and Tennessee, and patient assistance program materials and applications.

Activities to be completed under this program strategy include:

- ensuring that all employees providing Academic Detailing services under this sub-grant have been thoroughly trained on PrEP,
- developing and distributing print materials for use by Memphis MSA primary care physicians,
- scheduling and conducting at least twenty (20) office visits per detailer, per month, in order to provide PrEP related education and assistance, and
- ensuring that all materials and informational sessions cover the topics of:
  1. basic information about PrEP,
  2. protocols for prescribing PrEP,
  3. practice site champions,
  4. PrEP navigation,
  5. DIS PrEP specialists, and
  6. patient assistance program support.

Activity 2: Provider Support Services: PrEP Provider Liaison – Paying for clinical services and prescriptions is among the most significant barriers for clients interested in PrEP. The out of pocket costs for a person receiving PrEP can range from $8,000 to $14,000 per year; however, there are medication assistance programs (PAPs) and co-payment assistance programs (CAPs) that aim to alleviate these costs for the uninsured and underinsured. Tennessee has not chosen to expand Medicaid, leaving many potentially interested PrEP clients without the ability to pay. The insurance coverage landscape for PrEP is changing as more and more individuals attempt to access PrEP through private insurance, and many of the best candidates for PrEP do not have much experience with insurance and accessing healthcare. In order to assist providers who are willing to prescribe PrEP a PrEP Provider Liaison will be established in the Memphis MSA. This individual will be a resource for healthcare providers and will assist with patient assistance program paperwork, pre-approval paperwork, and connections to PrEP Navigation and augmented lab services. The PrEP Provider Liaison will aid primary care practitioners and safety net providers with the prescribing of and ongoing clinical support of PrEP.

Currently, limited provider knowledge of anti-retrovirals and PrEP clinical protocols can be a barrier to effective PrEP service provision, even for well-intentioned healthcare providers. Utilizing our existing the PrEP provider directory,
the PrEP Provider Liaison will identify practice site champions at the highest volume facilities. These site champions will be available to provide peer support to other healthcare providers who are interested in learning more or prescribing PrEP. These site champions will assist providers to overcome barriers to prescribing PrEP, and they will be ongoing resources as questions arise from providers who are prescribing and supporting patients on PrEP.

Activities to be completed under this program strategy include:

- answering provider questions about PrEP,
- providing professional support to PrEP providers,
- assisting PrEP providers with patient assistance program paperwork,
- connecting PrEP providers to PrEP Navigation and augmented lab services, and
- identifying as resources those providers who are already familiar with, and willing to prescribe, PrEP as Practice Site Champions.

C. Services Required

All services proposed by Respondents to this RFP must be provided within the above program strategies and in compliance with all applicable standards.

X. CONTRACT REQUIREMENTS

The successful Contracted Provider will be expected to enter into a contract incorporating the following terms and conditions, and such additional terms and conditions standard to services of this type.
