

QUESTIONS & ANSWERS
RFQ # 15-007-03
ENGINEERING DESIGN SERVICES
SEWER AND DRAIN REPAIR, 140 ADAMS AVENUE

1. Is there a plan holder's list or bidder's list you can send to me?
2. Is there an estimated project value that you can release?

1. We do not have a plan holders list but you can view the pre-bid sign-in sheet detailing who attended our pre-bid conference that will be post to our web site.
2. We do not discuss estimated project values.

From your previous answers, I know that there are no drawings or sketches available regarding the layout of the sewer and storm pipes leaving the courthouse. My main questions are as follows:

1. Are there multiple sewer and multiple storm lines leaving the perimeter of the building? Please contact Monte Denbow @ 833-7039 for a site visit.
2. If so, could you tell me how many, sizes, and general location of each? Please contact Monte Denbow @ 833-7039
3. With your consent, may a local member of Jacobs' staff contact you to discuss these questions and the information that was shared during Wednesday's meeting? We donot keep a transcript of what was discussed at pre-bid conferences but if you wish to call my number is 901-222-2251.

-
1. Are there any as-builts or drawings of any kind of these lines available ?
 2. Has any testing been done previously, i.e. television inspection, smoke testing, etc. on these lines and are results available ?
 3. Is there any information of the condition of the City sewer and storm system in the immediate area where these lines connect ?

Answers to these questions will be helpful in formulating our work plan. We look forward to submitting a proposal on this project.

The answer is "No" to all of the below questions.
